Excursion Recount – Noor 4I
On the 21\textsuperscript{st} of August, it was the Stage 2 trip. I arrived at school at 8:20am and I went and sat on the stairs. After 10 minutes, the bell rang. After a few minutes, the Stage 2 classes went to the Hall. We got our name tags and lined up. We waited for everyone to get organised. The first class to go was 3P, then 3O, 4/3M, 4Z and then 4I. Two buses were for Year 3 and the other was for Year 4. The Year 4’s arrived at the Archery Centre. The people that worked there told us what to do and we started. I was not too bad or too good at archery, I was okay. I hit the red part of the target. After archery, we went on a long walk. We ate our lunch and then we went to the Education Centre.

Excursion Recount – Aiman 4I
On the 21\textsuperscript{st} of August, it was Mrs Irrgang’s birthday and it was also our excursion. We did archery for one hour and we did lots of walking. When we were walking, we saw 2 ships and in one of the ships, there was a tree growing. When we arrived at the Education Centre, we ate our lunch then we played. We went with a lady to the mangrove tress, saw some crabs and walked on a winding path. We sat on this path and did a worksheet. We licked some mangrove leaves – the light green side was salty and the dark green side was not. We then went back to school after doing our activities.
Excursion Recount – Faaizah 4I
On the 21st of August, all of the Stage 2 students went to Olympic Park. Before we went, Mrs Irrgang marked the roll to make sure everyone was here for the excursion. When we were ready, we went off to the buses. We went separately from the Year 3’s. When we reached Sydney Olympic Park, we first went to the archery centre and learnt how to do archery. We got three shots on every turn. When we were done, we had a quick bathroom break. We then walked for a long time to the Education Centre. It was lunch time, so we walked up a hill to have our lunch. After that, we headed down to the Education Centre and had a bit of play time. After that, we went exploring for Mangrove Man. He was not real but he likes to eat symmetrical things. We all got a leaf and we got to lick it. We did some measuring. It was the best day ever!

Excursion Recount - Hanoof 4/3M
On Wednesday 21st August, 2013, Year 3 went on an excursion to the Sydney Olympic Park Archery Centre. After safely crossing a road, we arrived at the centre. We sat down and the instructor Alex taught us things like how to pull the bow up to our face. Then we joined up in partners, my partner was Vedanta. We both had three turns shooting three arrows each. I didn't hit the target but it was still fun because I learnt a new skill. Vedanta hit the black and red zones. Then we left the centre and had a picnic lunch.

Excursion Recount - Barin 4/3M
On Wednesday 21st August, 2013, Year 4 went to the Sydney Olympic Park Archery Centre and had a really fun time. I hit the blue zone but then arrow fell out of the target. This happened to a lot of people. Then we went to see the mangroves. We also saw some geese. After that we had lunch on picnic tables and we played with our friends for a little while. In the afternoon we did the maths investigation where we measured capacity, length and area and learnt all about the mangroves. After that we had to go back to school as it was home time.
